In addition to the teaching of claims 1, 33 and 34 as a whole, closest art of record failed to teach or suggest among other thing: "adjusting the color model value of one or more individual pixels in the saturation region by a corresponding adjustment, a magnitude of each adjustment dependent, at least in part, on a number of pixels between the corresponding individual pixel and an edge of the saturation region"

6. In addition to the teaching of claims 56 and 65, as a whole, closest art of record failed to teach or suggest among other thing: "adjusting the color model value of each of the individual pixels in the saturation region by a corresponding adjustment, a magnitude of the adjustment to each individual pixel based, at least in part, on the identified pattern; and converting the low bit depth representation of the image data to a higher bit depth representation, thereby accommodating the adjusted color model values in the higher dynamic range of the higher bit depth representation while preserving a color fidelity in regions of the image data outside the saturation region."

7. Claims not specifically addressed are allowed because they are dependent of the allowed independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
